Sketch, Adobe Illustrator, Affinity Designer, SVG

INDUSTRY EXPERIENCE

GENERAL ASSEMBLY | Full-Stack Web Developer

June, 2017 - Present

Conducted user research and developed a full-stack web application that matched brand identity attributes with psychologically-mapped color schemes; collaborated with three other developers and shipped on a tight, one-week deadline

Established an experimental network marketing strategy with an education startup called Simor at Boomtown Accelerator and built a full-stack application to track the strategy's reach

Created a music theory interactive game, whose design was featured on the company Instagram and liked by companies like Motivated Design in NYC

Skills developed: Prototypal and classical inheritance, understanding stack and queue data structures, Big O awareness, hybrid mobile development

EDUCATION

FORT LEWIS COLLEGE | B.A. Music

Served as the designated Music Theory tutor for the college music department for three years; received annual diversity and learning disability training

FULL STACK DEVELOPER COURSE | Colt Steele, Udemy

A remote course introducing full-stack development using a cloud-based development environment and RESTful services

FRONT-END WEB DEVELOPER BLUEPRINT | Skillcrush

A remote course introducing front end development techniques, and version control with Git
